Note:

The logo depicted here on the right, "DVB-T2 HD" is a registered trademark and may only be used after prior permission by Deutsche TV-Plattform.

Permission is granted only for a specific unit model stipulated precisely in this application. Suppliers of several models must obtain separate permission for each.

A handling fee is payable for permission and use of the logo to Deutsche TV-Plattform (DTVP). The handling fee amounts to € 700 for members of DTVP for the first model and € 450 for each additional model. For non-members of DTVP the handling fee amounts to € 900 for the first model and € 650 for each additional model (plus value added tax)

Permission includes the following uses of the logo in connection with the registered DVB-T2 HD antenna model:

- Application of the logo to the unit as well as to the sales packaging
- Use in leaflets, booklets, catalogues and similar advertising material
- Use at events such as trade fairs or information days
- Use in electronic form in business letters, press information or also on the web

Manufacturer's declaration

We hereby declare that the Antenna model distributed by us:

Brand: _____

Model/Type: _____

meets the specification as set out in the „**Minimum Requirements for DVB-T2 receiving antennas for portable indoor and portable outdoor reception**“ of Deutsche TV-Plattform e. V.
(Version 1.0, from: 30.05.2016 downloadable at www.tv-plattform.de)

[] in full.

[] with the following restrictions for the following reasons:

(Please list the deviations in full, giving brief reasons, using an additional sheet if necessary.)

1. _____

Reason: _____

2. _____

Reason: _____

The relevant **measurement reports** of the antenna have to be **submitted** with the application.

The measurement method for gain (passive antenna), equivalent passive gain (active antenna) or figure of merit (active antenna) shall be described in detail (see item 5 in the Minimum Requirements). The amplification of the active part of the antenna is not equal to the equivalent passive antenna gain. The frequency resolution for the measurements shall be high enough for assessing the ripples for the bandwidth of 8 MHz and the full frequency band.

An expert group of the Deutsche TV-Plattform verifies the plausibility of the application regarding conformity to the „Minimum Requirements“ on the grounds of the measurement reports submitted. The Deutsche TV-Plattform may request a device sample from applicants for further verifications, such sample shall be sent at applicants' costs.

Explanatory Note

The „Minimum requirements for DVB-T2 receiving antennas for portable indoor and portable outdoor reception“ of Deutsche TV-Plattform of 30th of May 2016 are the base for using the Logo DVB-T2 HD on antenna devices. Restrictions / exceptions to the conditions set out in Minimum Requirements have to be mentioned and explained in the application. It is at the discretion of the Deutsche TV-Plattform to grant the right to use the Logo in case of restrictions. In case of significant restrictions, especially regarding any („shall“) requirement of the Minimum Requirements, a right to use the Logo cannot be granted.
